

**Albahealth. An Encompass Group Company.**

For more than 25 years, Albahealth has led in the development of products and technologies for the control and prevention of DVT. The StarSystem is the result of both extensive product R&D and the knowledge gained from years of listening to health care providers and their patients. It pulls together everything we've learned into a comprehensive system of proven products – all developed and engineered in the USA. The StarSystem is supported by Albahealth's highly trained international sales team, which includes seasoned medical professionals, and is backed by Encompass Group, a health care industry leader.

**Encompass Group. First in safety and comfort.**

Encompass has been helping health care providers create safe, comfortable environments for patients and staff for close to a century. Encompass is focused on prevention. By providing clinically proven products and services that address a number of serious conditions, Encompass helps you achieve significant and quantifiable improvements in care.

In an age of rising health care costs, our clinical resource experts can help you promote the well-being of everyone in your care, while staying true to your bottom line. Along with clinical education tools, product implementation programs and cost management consulting services, Encompass offers the tools and resources you need to educate your staff, evaluate product use, reduce costs, improve care and create healthier environments.

The marks PulSTAR, NxSTAR, UltraCARE, Rightway, EssentialCARE, HomeCARE, StarSYSTEM, PAS and Albahealth are the property of Encompass Group LLC.

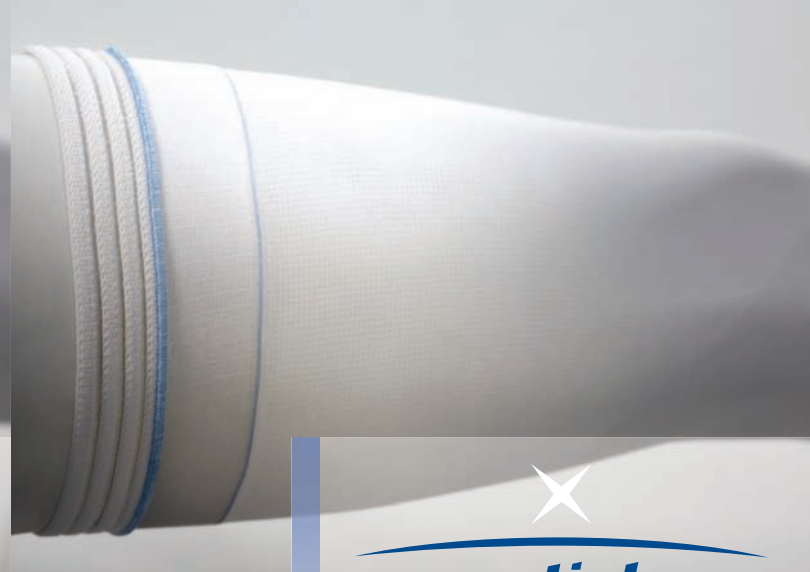

An integrated suite of superior products and technologies for the control and prevention of DVT. From **Albahealth.**

PulSTAR™, NxSTAR™, UltraCARE™ featuring Rightway®, EssentialCARE™, and HomeCARE™. The **StarSystem™** from Albahealth. Stellar performance in the control and prevention of DVT.

The PulSTAR™ intermittent pneumatic compression system features the proven PulSTAR Wrap and the hard-working PAS® II Pump. A quarter century of experience comes standard.

Engineered to work with NxSTAR™ Calf and Foot Wraps, the lighter, quieter and smaller NxSTAR Pump takes StarSystem DVT prevention technology to the next level.

**The PulSTAR Wrap**

- Proven 25-year record of efficacy
- Soft, breathable and latex-free. The cotton/polyester material wicks away moisture
- Proprietary safety connector will not connect to other equipment
- Single chamber bladder delivers clinically proven efficacy and reliability
- Easy application to the anterior area of the calf is efficient for staff and comfortable for the patient thereby improving compliance

**NxSTAR Pump**

- Lightweight – weighs less than 6.5 pounds
- Quiet – output decibel rating is significantly lower than a hospital's typical ambient rating
- Preset to deliver optimal therapeutic pressure
- Customizes pressure to each patient's limbs
- Single or dual limb operation provides more flexible therapy
- Small footprint saves valuable space
- Proprietary safety connectors are color coded to easily identify single limb operation; will not connect to any other hospital equipment
- Digital LCD screen is easy to read from multiple angles
- Audio/visual alarms
- Permanently attached tubing and 12' power cord
- Clinician override system designed to be operated by hospital staff only

**NxSTAR Calf Wrap**

- Cool & comfortable, lightweight cotton/polyester blend for patient comfort
- Single chamber bladder with clinically proven efficacy is easily placed on the anterior of the calf. Comfortable for the patient and easy for the staff to apply
- Two sizes fit the majority of patients
- Latex-free
- Compact packaging saves shelf space

**NxSTAR Foot Wrap**

- Cool and comfortable design using construction with a proven patient compliance history
- Foot and heel adjustments for proper positioning
- Two sizes fit the majority of patients
- Latex-free

**UltraCARE™ AES**

- The first true innovation in this market class in over 25 years. The word *CARE* means Control And Resist Embolisms. The word *Ultra* speaks for itself.
- UltraCARE was created to further address patient comfort, performance and compliance factors
- The UltraCARE Rightway® System is unique. It's comprised of three key components and is patent pending:
  - Heel Pouch** Eases donning and doffing and assists in proper placement
  - Heel Guides** Assist in proper placement. Color coded for visual size identification
  - Ribbed Ankle Crest** Helps prevent excess fabric from abrading the skin
- Color coded sizing and packaging – color coded heel guides coordinate with inspection port and product package for easy identification

**EssentialCARE™ AES**

- Extensive size standards to address a broader general population
- Anti-microbial treatment helps protect against bacteria
- Rapid moisture transfer – High performance fabric wicks moisture
- Textured foot increases durability during ambulation
- Formed heel patch assists proper alignment
- Two way stretch fabric eases application
- Colored toe port and heel block for easy size identification
- Alignment indicator aids proper positioning

**HomeCARE™ AES**

StarSystem AES technology is also available for the continuous care market through our comprehensive HomeCARE line. Visit [www.dvtstar.com](http://www.dvtstar.com) for more information.
