

executorNET

Web Based Application

The screenshot shows the executorNET web application interface. At the top, there is a navigation bar with the 'encompass' logo and 'executorNET' text. Below the navigation bar, there are several menu items: 'Logout', 'Smart Customer', 'Count Lines', 'Set Forecast', 'Self Support', 'Reports', 'Setup', 'Administration', and 'Help'. The main content area displays a table of linen items with columns for 'Item', 'Quantity', 'Status', 'Location', 'Weight', 'Charge', and 'Material'. The table is titled 'PHSMC - ICU - Seton' and lists various items such as 'Mattress Pad', 'Incontinent Pad - TSI', 'Pillow Case - STJ', 'Three Arm Gown', 'Robe', 'Incontinent Pad - STJ', 'Flat Sheet - STJ', 'Knit Contour', 'Thermal Blanket - STJ', 'Bath Blanket - STJ', 'PJ Pants Large Adult', '10XL IV Patient Gown - STJ', 'IV/Tele Patient Gown - STJ', 'Wash Cloth - STJ', and 'Bath Towel - STJ'. The table also includes a section for 'Add Unscheduled Products' with a list of items like 'PHSMC - CCU - Seton', 'PHSMC - CSU - Seton', 'PHSMC - Seton Intermediate Unit East', and 'PHSMC - Seton Intermediate Unit West'.

Key Features

- Access your information from any workstation within or outside your facility
- Create and view dynamic usage and utilization reports quickly and accurately
- Email and save reports in PDF or Microsoft Excel formats
- Utilize packs and procedures to customize product combinations that meet your requirements
- Automatic software updates
- Automatic backups
- Generate daily delivery requirements

When managing your facilities linen, our powerful, web based distribution and tracking tool delivers an exceptional level of service.

Using ExecutorNET's data input and reporting features, linen managers can easily maintain detailed records of item quantities, weights, and charges for order restocking. Your personnel can use this information to pinpoint cost and usage excesses by order, department, or customer.

ExecutorNET employs restocking information in a sophisticated, easy-to-use fashion to help you get your job done faster. For example, ExecutorNET can use today's restocking quantities to generate tomorrow's bulk linen requirements.

We have fashioned ExecutorNET to accommodate even the busiest, most complex facilities. Whether your facility utilizes outside linen support or an on premise laundry, ExecutorNET is sure to make your daily accounting procedure quicker and easier than ever imagined.

SYSTEM REQUIREMENTS

Optimal Access

- Internet Explorer 7.0
- Screen Resolution 1024 x 768

Report/Graph Printing and Viewing

- Adobe Acrobat Reader
- Microsoft Excel

DESKTOP INTERFACE

The ExecutorNET multi-function desktop interface provides the convenience of online inventory tracking and linen room monitoring with the ease of data entry.

The desktop interface exploits the power of the workstation's operating system to provide a high-speed method of data input.

The desktop interface allows you to:

Enter daily linen counts, print daily and weekly stocking forms, and globally adjust par or required quantities based on available linen stock.

Manage circulating inventories by injecting and retiring linen and recording physical inventory quantities.

Track receipts and deliveries to and from the linen room and laundry by items and/or weight.

Monitor soil to clean, as well as receiving and distribution accuracy

HANDHELD INTERFACE

Enjoy the convenience of a Pocket PC mobile hand-held device to reduce the time and labor needed to enter restocking information and increase data accuracy for your entire facility.

Use the batch method and Sync the device through your facility's wireless network or use an ActiveSync connection through a workstation.

Capture the data entry in real time with our online program and your wireless network.

Print to a compatible wireless printer using Bluetooth technology. Utilize the pick list to replenish cart inventory.
