

## PERSONAL PILLOWS

Fresh and clean for each patient use helps to minimize cross-contamination

Soft and breathable for optimal comfort

100% recycled fiberfill is environmentally responsible

Individually shrink-wrapped

The Pillow Factory® family of disposable personal pillows are manufactured with the same care and quality construction as our reusable products. Personal pillows offer ideal softness and breathability for patient comfort and are clean and fresh for each use. Each pillow is individually shrink-wrapped and conveniently packaged in dispenser boxes for easy storage and access in high use areas.

We take pride in the fact that our pillows are made in the United States with recycled materials. 100% recycled fiberfill is used in all pillows reducing the need for additional resources to be taken from the earth.

encompass

Better care starts  
with safety and comfort.

## PERSONAL PILLOWS

Personal pillows are optimal for patient comfort and are fresh for each patient. A special manufacturing process called garnetting creates lofty and resilient fiberfill interior layers. A breathable cover allows air to escape from the pillow for superior comfort. Personal pillows are easily configured for propping.

Specialty post-surgical pillows assist patients with recovery. The Hugger pillow features dense fiberfill and can be hugged to reduce the impact of coughing. Prop pillows keep limbs elevated.

- Soft and breathable olefin ticking
- Recycled fiberfill
- Individually shrink-wrapped
- Fresh and clean
- Dispenser-box packaging
- Easily configured for propping
