The Pillow Factory® Division of Encompass Group, LLC Announces RevolutionaryCARE™ Reusable Pillows

McDonough, GA—(2015)—Encompass Group, LLC, announces RevolutionaryCARE Reusable Pillows, a new alternative for hospital patients and extended care residents. The Pillow Factory division of Encompass Group is the market leader in healthcare pillows.

“The RevolutionaryCARE pillow will revolutionize patient and resident comfort expectations, enhancing their healthcare experience,” said Encompass Director of Marketing for The Pillow Factory, Michelle Daniels.

This soft and supple reusable pillow delivers optimal comfort while providing exceptional value and longevity. With quick loft recovery, an amazing feel, and unique barrier performance, this pillow will provide all of the memory, without the foam. A distinct breathing strip is available where additional breathability is required.

RevolutionaryCARE Pillows are made in the U.S.A, and engineered to support ease in cleaning and care. “By offering patients and residents the experience of a soft, pliable, fluid resistant pillow it exemplifies the Encompass vision of, ‘Every patient, resident, caregiver, and family member should feel Safe and Comfortable in today’s healthcare environment’,” said Daniels.

Every Pillow Factory pillow is ‘green’: The Pillow Factory manufactures high-quality pillows in the United States in environmentally-responsible, zero-emission facilities that are pollution-free and have a small environmental footprint. Pillows are compressed to maximize the number of pillows shipped in corrugated boxes, thereby reducing packaging waste. Strategically placed regional manufacturing facilities reduce transportation requirements, minimizing fuel usage, diesel pollution, and other associated environmental costs.

Samples are available on request. Contact Michelle Daniels, Director of Marketing, 770-626-2061, michelle.daniels@encompassgroup.net
